Grant Thornton LLP is pleased to present the results of this January 1, 2015 actuarial valuation of the Kent County Retiree Benefits Program ("Plan"). This report should be used to determine costs for the fiscal year ending June 30, 2015.

The purposes of this valuation are as follows.

- Review and report the funded status of the plan under Chapter 79 Section 12 of the Kent County Code.
- Serve as a guideline for contributions to be made for the fiscal year.
- Report the value of such benefits and the associated costs according to the accounting requirements of Governmental Accounting Standards Board Statement No. 45, Accounting for Postemployment Benefits Other than Pensions by State and Local Governmental Employers ("GASB 45").

The information presented in this report is based on our understanding of the provisions of the Plan and a reasonable interpretation of applicable federal and state statutes and regulations. If you have any questions or would like to discuss the results contained in the report further, please let us know.

Respectfully submitted,

## Executive Summary

Kent County Levy Court (“County”) provides health care benefits to retirees who meet certain eligibility criteria upon retirement. These retiree health care benefits are described under Chapter 79 of the Kent County Code (“Code”) and are commonly referred to as the Kent County Retiree Benefits Program (“Plan”). This report presents the results of the actuarial valuation of the Plan for purposes of determining the contribution requirements for the year and the accounting cost for the County’s financial reporting.

## Contribution Requirements

Under Section 12 of Chapter 79 of the Code, an actuary shall at least biennially review the Retiree Benefits Trust Fund (“Fund”) and shall report to the County government whether any additional sums of money are needed to keep the Fund actuarially sound so that sufficient assets will always be available to pay the benefits provided.

The cost method used to determine the funded status of the Plan and the annual contribution requirements is the Projected Unit Credit Actuarial Cost Method. It is an individual type cost method that directly defines an actuarial accrued liability and normal cost.

The Plan’s funded status has declined since the previous valuation as the table below indicates, and is primarily driven by increased premium rates and changes in plan demographics different than expected.

	<u>January 1, 2015</u>	<u>January 1, 2013</u>
Actuarial Accrued Liabilities	\$14,832,203	\$11,529,437
<u>Market Value of Assets</u>	<u>13,642,314</u>	<u>11,028,790</u>
Unfunded Amount	1,189,889	500,647

Based on the actuarial methods and assumptions used in this valuation and the Code in effect on January 1, 2015, the contribution determined under the Projected Unit Credit method is determined to be:

	<u>January 1, 2015</u>	<u>January 1, 2013</u>
Proposed Contribution	\$785,111	\$616,016

## Plan Assets

Pursuant to Section 12 of Chapter 79 of the Code, the County shall establish and maintain a Fund which shall be used for the purpose of paying the benefits provided. Each year the County makes contributions to the trust, and the trust pays related expenses and benefit payments to participants. The trust also generates income from its investments that are used to help pay for the benefit payments and plan expenses in future years.

The trustee reports the market value of assets that includes the net changes in the appreciation or depreciation of the investments held.

Plan assets used for this valuation are:

	<u>January 1, 2015</u>	<u>January 1, 2013</u>
Market Value of Assets	\$13,642,314	\$11,028,790

## Plan Participants

A file of employee data was provided by the County which contained basic indicative, compensation and employment information for each employee. While an audit of the data was not made, a thorough check was done, reconciling the prior valuation data with the new data. This data was checked for internal consistency and for consistency with the prior year. A full summary of participant information is shown in Section V.

<b>Plan Participants</b>		
	<u>January 1, 2015</u>	<u>January 1, 2013</u>
1. Active Employees	280	285
2. <u>Retirees</u> <sup>1</sup>	<u>114</u>	<u>111</u>
3. Total Participants	394	396

<sup>1</sup>This total includes retirees who elect to enroll their spouses in coverage as well. Total retiree counts displayed throughout this report include retirees and any covered spouses.

## Actuarial Certification

This report presents the results of the actuarial valuation of the Kent County Retiree Benefits Program.

The purposes of this valuation are as follows.

- Review and report the funded status of the plan under Chapter 79 Section 12 of the Kent County Code.
- Serve as a guideline for contributions to be made for the fiscal year.
- Report the value of such benefits and the associated costs according to the accounting requirements of Governmental Accounting Standards Board Statement No. 45, Accounting for Pensions by State and Local Governmental Employers (“GASB 45”)

In conducting the valuation, we have relied on personnel, plan design, and asset information supplied by the Kent County Levy Court. While we cannot verify the accuracy of all this information, the supplied information was reviewed for consistency and reasonableness. As a result of the review, we have no reason to doubt the substantial accuracy of the information and believe that it has produced appropriate results.

In our opinion, all calculations and procedures are in conformity with generally accepted actuarial principles and practices, including the applicable Actuarial Standards of Practice as issued by the Actuarial Standards Board. In addition, the results comply with the requirements of the applicable Statements of Financial Accounting Standards and the Internal Revenue Code including the economic and demographic assumptions used which are based on plan experience and reflect the economic market conditions as appropriate.

We are available to answer any questions regarding this material or to provide explanations and further details, as may be appropriate. The undersigned meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained in this report.

Under Section 12 of Chapter 79 of the Code, an actuary shall at least biennially review the Retiree Benefits Trust Fund and shall report to the County government whether any additional sums of money are needed to keep the Fund actuarially sound so that sufficient assets will always be available to pay the benefits provided.

In this section we determine the recommended contribution amounts to the trust based on the results of the actuarial valuation.

### Normal Cost

The cost method used to determine the funded status of the Plan is the Projected Unit Credit Actuarial Cost Method. Under this method the normal cost is a direct allocation to the current year of the present value of projected benefits for each active participant in the Plan.

The amount allocated to the current year is the normal cost and is determined as follows:

	<u>January 1, 2015</u>	<u>January 1, 2013</u>
1. Actuarial Present Value of Future Benefits		
A. Active	\$13,525,237	\$10,724,411
B. <u>Retiree</u>	<u>6,889,650</u>	<u>5,719,999</u>
C. Total	\$20,414,887	\$16,444,410
2. Market Value of Assets	13,642,314	11,028,790
3. Normal Cost	\$629,089	\$529,208

### Range of Contributions

The annual contribution is comprised of the normal cost plus an amortization of the unfunded actuarial accrued liability amortized over a period of years.

The table below displays the County's contribution under four scenarios ranging from an immediate payment of the unfunded liability to a 30 year amortization of the unfunded liability.

	<b>Recommended Contribution</b>	
	<u>2015</u>	<u>2013</u>
Normal Cost (beginning of year)	\$ 629,089	\$ 529,208
Normal Cost and Immediate Funding of Unfunded Liability	\$ 1,964,496	\$ 1,112,243
Normal Cost and 5 Year Amortization of Unfunded Liability	\$ 977,432	\$ 696,935
Normal Cost and 20 Year Amortization of Unfunded Liability	\$ 800,609	\$ 622,537
Normal Cost and 30 Year Amortization of Unfunded Liability	\$ 785,111	\$ 616,016

Historically, the County has adopted a funding policy that amortizes any unfunded liability over a 30 year period. Based on the actuarial methods and assumptions used in this valuation and the Code in effect on January 1, 2015, the recommended contribution is determined to be \$785,111.

The following exhibits show the Annual Required Contribution (ARC), Annual OPEB Cost (AOC), and projected June 30, 2015 Net OPEB Obligation (NOO), assuming the accounting standard was first adopted for the 2009 Fiscal Year.

The Projected Unit Credit cost method is used for GASB 45 reporting. Under this cost method, the total value of benefits for each individual is allocated over their period of employment with the County. The summary below presents the results of the actuarial valuation for GASB 45 reporting purposes.

	<u>January 1, 2015</u>	<u>January 1, 2013</u>
Present Value of Future Benefits		
Actives	\$13,525,237	\$10,724,411
<u>Retirees</u>	<u>6,889,650</u>	<u>5,719,999</u>
Total	\$20,414,887	\$16,444,410
Actuarial Accrued Liability		
Actives	\$7,942,553	\$5,809,438
<u>Retirees</u>	<u>6,889,650</u>	<u>5,719,999</u>
Total	\$14,832,203	\$11,529,437
<u>Plan Assets</u>	<u>13,642,314</u>	<u>11,028,790</u>
Unfunded Liability	\$1,189,889	\$500,647
Normal Cost	\$629,089	\$529,208

### Development of Annual Required Contribution

GASB 45 sets the method for determining the County's retiree medical benefits accrual. The Annual Required Contribution (ARC) is comprised of the value of benefits earned during the year (Normal Cost) and a supplemental cost based on an amortization of the Unfunded Actuarial Accrued Liability. Accordingly, the following table shows the County's ARC based on a 30-year amortization of the Unfunded Actuarial Accrued Liability as a level dollar amount:

	<u>2015</u>	<u>2013</u>
Preliminary ARC		
Normal Cost	\$629,089	\$529,208
<u>Amortization of Unfunded Liability</u>	<u>97,866</u>	<u>41,177</u>
Beginning of Year Contribution	\$726,955	\$570,385
<u>Interest on Contributions</u>	<u>58,156</u>	<u>45,631</u>
Preliminary ARC	\$785,111	\$616,016
ARC Reflecting Maximum Amortization Period		
Normal Cost	\$629,089	\$529,208
Unfunded Liability	1,189,889	500,647
Amortization of Unfunded Liability (maximum period)	97,866	41,177
Beginning of Year Contribution	726,955	570,385
<u>Interest on Contributions</u>	<u>58,156</u>	<u>45,631</u>
Minimum ARC	\$785,111	\$616,016
Annual Required Contribution (ARC)	\$785,111	\$616,016

### Development of Annual OPEB Cost

The following table shows the County's Annual OPEB Cost for the 2015 Fiscal Year.

	<u>2015</u>	<u>2013</u>
Annual Required Contribution (ARC)	\$785,111	\$616,016
Interest on Net OPEB Obligation	0	0
<u>Adjustment to Annual Required Contribution</u>	<u>0</u>	<u>0</u>
Total Annual OPEB Cost (AOC)	\$785,111	\$616,016

### Development of Net OPEB Obligation

The following table shows an estimated development of the County's Net OPEB Obligation as of the end of the Fiscal Year.

	<u>2015</u>	<u>2013</u>
Net OPEB Obligation at Beginning of Year	\$0	\$0
Annual OPEB Cost	785,111	616,016
<u>Annual Employer Contributions</u>	<u>(785,111)</u>	<u>(616,016)</u>
Net OPEB Obligation at End of Year	\$0	\$0

### Schedule of Funding Progress

GASB 45 paragraph 26(a) requires the following elements to be listed in the report. Below is the projected schedule of funding progress:

<b>Schedule of Funding Progress</b>						
<u>Valuation Date</u>	<u>Actuarial Value of Assets</u>	<u>Actuarial Accrued Liability</u>	<u>Unfunded Liability</u>	<u>Funded Ratio</u>	<u>Covered Payroll</u>	<u>Unfunded Liability as a Percentage of Covered Payroll</u>
1/1/2009	\$7,047,685	\$9,831,188	\$2,783,503	71.7%	n/a	n/a
1/1/2011	\$9,705,468	\$11,197,634	\$1,492,166	86.7%	n/a	n/a
1/1/2013	\$11,028,790	\$11,529,437	\$500,647	95.7%	n/a	n/a
1/1/2015	\$13,642,314	\$14,832,203	\$1,189,889	92.0%	n/a	n/a

## 25-Year Payout Projection

Annual payments expected based on the current census (i.e. a closed group projection) and actuarial assumptions detailed in Section VI - Assumptions and Methods:

<b>25-Year Payout Projection</b>			
<b>Fiscal Year Beginning July 1</b>	<b>Employer Contribution</b>	<b>Active Headcount</b>	<b>Retiree Headcount</b>
2015	\$ 818,675	280.00	114.00

2039	2,709,220	21.79	142.49

## Plan Assets

The benefits under the Plan are funded by contributions regularly made to the Fund. The Trustee holds and invests the accumulated monies and disburses from the Fund any benefits that become payable upon retirement.

The market value of assets is presented below.

		<u>12/31/2014</u>		<u>12/31/2012</u>
Market Value of Assets	\$	13,642,314	\$	11,028,790

## Plan Participants

This actuarial valuation is based on participation data provided by the County. Participation in the Plan is based on Section 3 Chapter 83 of the Code and includes current employees of the County who satisfy eligibility requirements for participation in the Plan and former employees who are receiving or are entitled to receive a benefit under the Plan.

The number of Plan participants included in this valuation is described below.

<b>Plan Participants</b>		
	<u>January 1, 2015</u>	<u>January 1, 2013</u>
1. Active Employees	280	285
2. <u>Retirees</u>	<u>114</u>	<u>111</u>
3. Total Participants	394	396

Data reconciliation between the current and prior valuation dates is shown below.

	<b>Actives</b>	<b>Retirees</b>	<b>Total</b>
<b>January 1, 2013</b>	<b>285</b>	<b>111</b>	<b>396</b>
<b>Changes Due to:</b>

<b>January 1, 2015</b>	<b>280</b>	<b>114</b>	<b>394</b>

## Assumptions and Methods

The assumptions and methods displayed in this section were selected from the complete set of assumptions used to calculate liabilities for the plan. Kent County Levy Court has reviewed the assumptions and recommended to the actuary that they be used.

### A. DISCOUNT RATE

The nominal rate used to discount liabilities is 8.0%.

### B. TREND RATE

The healthcare trend assumption reflects healthcare cost inflation expected to impact the plan based on forecast information in published papers from industry experts (actuaries, health economists, etc.).

Fiscal Year End	Medical Trend
2015	5.00%
2016	5.00%
2017	5.00%
2018	5.00%
2019 and beyond	5.00%

### C. MORTALITY

Mortality assumptions use the RP-2000 Combined Healthy table.

### D. MORBIDITY

Expected medical claims are assumed to increase 2%, on average, as participant's age.

### E. MARRIAGE

20% of active employees are assumed married. If spouse date of birth was not provided females were assumed to be the same age as males.

### F. PARTICIPATION ELECTION

100% of eligible active employees are assumed to participate in the retiree medical benefit plan upon retirement.

### G. SALARY SCALE

Compensation was assumed to increase 3.5% per annum.

### H. COST METHOD

The Projected Unit Credit Cost Method.

### I. ASSET VALUATION METHOD

The plan's market value of asset is used for accounting purposes.

**J. DATA ASSUMPTIONS****1. NEW RETIREE ELECTIONS, MEDICAL COVERAGE**

It is assumed that new retirees select coverage consistent with their active election, and are assumed to participate in Medicare.

**2. Amortization Period**

The period selected for amortizing the unfunded actuarial liability in determining the ARC is the maximum limit of 30 years. Amortization reflects a closed, level dollar method.

**K. MORTALITY RATES**

Mortality for the valuation is the RP-2000 Combined Healthy Table. Disabled participants set rates forward 10 years. Select mortality rates are below.
