

SEALED CONSTRUCTION PLANS

Construction plans for any use other than residential or agricultural buildings **shall be prepared** and bear the seal of an Architect currently registered in the State of Delaware with the State Board of Professional Registration or an Engineer licensed with the Delaware Association of Professional Engineer (D.A.P.E.). If part of the project could be considered an engineering project, plans **should be prepared** and sealed by a Professional Engineer practicing in an appropriate discipline and currently registered with the D.A.P.E.

Construction Plans

Construction plans are to consist of a complete sets of drawings showing the project in sufficient detail to ensure building code compliance.

The architect/engineer should provide a complete Code Summary stating all design considerations used in preparing the building including but not limited to:

- Referenced codes.
- All design loads.
- Construction type and Use group.
- ICC/ANS A117.1 requirements.

Additional Plan Requirements

- Foundation Plan and details.
- Floor Plan(s).
- Full sections and details.
- Plumbing and mechanical plan(s).

Site Plan

- For commercial properties that have 5000 sqft. of impervious coverage, Kent County requires formal site plan approval.
- Site plan approval is required for all churches or similar gathering places.
- A building permit cannot be issued until the final site plan has been received and granted approval by the Department of Planning Services.

Plot Plans

A prepared survey or scaled drawing of the property with the proposed location of the new building, proposed addition, or improvement is preferred.

A plot plan will show:

- The overall dimensions of the property.
- Street or road frontage(s) and the name of the road(s).
- Location of any existing structures and proposed structures with measurements from all four (4) property lines.
- Location of septic or hook-up to public sewer.
- Location of the septic system and the distances from any structures.
- North direction.

Floodplain Requirements

If the property is located within the 100 year floodplain, an Elevation Certificate is required at the time of permit application.

Additional Kent County Floodplain Requirements

- All structures within the 100 year floodplain are to be elevated to 18 inches above the Base Flood Elevation (BFE) unless located within Town limits where Kent County does not enforce their floodplain requirements.
